Certification Maintenance Bulletin
The APICS CPIM Program

The APICS Certified in Production and Inventory Management (CPIM) program is recognized worldwide as the standard of professional competence in production and inventory control and supply chain management. Obtaining an APICS certification shows a commitment to the profession that leads to a sense of accomplishment, demonstrates value to the employer, enhances earning potential, and provides a path to career advancement. More than 95,000 professionals have earned their APICS CPIM, and nearly 3,000 have achieved Fellow status. The APICS CPIM program is divided into five process-oriented topic areas to provide participants with the best possible educational assessment and knowledge base.

After completing the APICS CPIM or APICS CFPIM program, designees must participate in the Certification Maintenance program. This bulletin contains all the information needed to successfully maintain the APICS CPIM and APICS CFPIM designations.

APICS CODE OF ETHICS

• To maintain and improve sound business practices and foster high standards of professional conduct
• To hold in professional confidence any information gained of the business of a fellow member’s company and to refrain from using such information in an unethical manner
• To seek success without taking unfair advantage or using questionable acts that would compromise one’s self-respect
• To neither engage in nor sanction any exploitation of one’s membership, company, or profession
• To encourage and cooperate in the interchange of knowledge and techniques for the mutual benefit of the profession
• To be careful with one’s criticisms and liberal with one’s praise—to build and not to destroy
• When a doubt arises as to the right or ethics of one’s position or action, to resolve such doubt according to generally accepted standards of truth, fair dealing, and good taste
• To maintain high personal standards of moral responsibility, character, and business integrity
• To uphold the high ideals of the association as outlined in the bylaws

APICS THE ASSOCIATION FOR OPERATIONS MANAGEMENT

APICS The Association for Operations Management is the global leader and premier source of the body of knowledge in operations management, including production, inventory, supply chain, materials management, purchasing, and logistics. Since 1957, individuals and companies have relied on APICS for its superior training, internationally recognized certifications, comprehensive resources, and worldwide network of accomplished industry professionals. To learn more about the APICS community, visit apics.org.

OBTAINING YOUR APICS CFPIM DESIGNATION

After earning an APICS CPIM designation, individuals are eligible to advance to the Certified Fellow in Production and Inventory Management (CFPIM) designation. The distinguishing characteristic of a APICS CFPIM is the willingness to share acquired knowledge with others through presenting, publishing, teaching, and participating in professional development activities.

JOIN APICS AND SAVE

APICS members pursuing an APICS certification enjoy savings up to 25 percent on certification review courses, review materials, and testing fees. Members also save on certification materials, multimedia, courseware, and training aids available through the APICS Bookstore.

To join APICS today, call APICS Customer Support at (800) 444-2742 or (773) 867-1777 M-F, 8:00 a.m. - 5:00 p.m. CT, or visit the APICS Web site at apics.org/join.
THE IMPORTANCE OF CERTIFICATION MAINTENANCE

The growing number of individuals choosing to pursue professional development through APICS’ prestigious Certified in Production and Inventory Management (CPIM) and Certified Fellow in Production and Inventory Management (CFPIM) programs indicates a strong awareness that continuing education and skills development are essential to meeting the information and technological challenges in today’s rapidly evolving workplace and global marketplace. Professional development opens doors to individual career opportunities and organizational success.

APICS’ decision to introduce its Certification Maintenance program followed several years of careful consideration and intense market research. Information derived from surveys of certified members and nonmembers, as well as other benchmark data, showed not only that certification maintenance is standard among comparable organizations, but also that individuals overwhelmingly support some form of ongoing certification requirements for maintaining the integrity of their professional credentials.

The Certification Maintenance program upholds both the objectives of the APICS CPIM and APICS CFPIM programs and APICS’ vision to promote lifelong learning. This flexible program recognizes that individuals are at various levels in their careers, come from many industries, have different educational needs and career goals, and have varying degrees of access to continuing education. Thus, requirements for maintaining certification can be met through multiple sources and a variety of professional development activities intended to help individuals prepare for the challenges ahead and maintain a professional edge by

- preserving the currency of hard-earned certification credentials
- expanding their knowledge of the latest industry practices
- exploring new technology solutions
- reinforcing skills
- improving job performance
- demonstrating commitment to excellence
- increasing competitive advantage.

NEW! APICS Recertification Exam

APICS is pleased to announce that a new certification product is developed this year known as the APICS Certified Production and Inventory Management (CPIM) Recertification Exam. The APICS CPIM Recertification Exam provides a unique opportunity to individuals whose APICS CPIM credentials have expired and previously were required to retake all five APICS CPIM exams. Instead, candidates now can renew their certification by taking one exam. The three-hour exam will consist of 120 multiple-choice questions. The test will include 30 items taken from each of the following modules: Detailed Scheduling and Planning, Master Planning of Resources, Execution and Control of Operations, and Strategic Management of Resources.

Candidates must apply and qualify before they can register for the exam. Please refer to the APICS CPIM Recertification Exam Bulletin at apics.org/certification or contact APICS Customer Support at (800) 444-2742 or (773) 867-1777 to order stock number #09062 for more detailed information.

How the Certification Maintenance Program Works

In August 1997, the APICS Board of Directors approved the implementation of the Certification Maintenance program applicable to APICS’ Certified in Production and Inventory Management (CPIM) and Certified Fellow in Production and Inventory Management (CFPIM) programs. Certification maintenance enables individuals...
Application deadline Notification

APICS stores your initial certification date and certification maintenance dates in its database. Thus, once you become certified, you automatically receive from APICS the following certification maintenance materials:

- application deadline reminders
- periodic program updates

APICS sends four application deadline reminders via email to all candidates. Reminders are sent one year in advance of the deadline, 90 days, 60 days and 30 days.

Members receive additional notification of their certification maintenance deadline on their membership renewal notice.

Lifetime Certification

As an APICS-certified professional, you are eligible to become certified for life at age 62. No further reporting of continuing professional development activities for certification maintenance is required. However, you must notify APICS in writing with supporting documentation of proof of age (e.g., a copy of driver’s license or birth certificate) on or before your certification maintenance deadline. Once documentation is received, APICS will send you confirmation of your lifetime certification status. Note that if your certification status is suspended, you are not eligible for lifetime certification until you renew your certification.

Suspension of Certification

To maintain the integrity and consistency of the certification designation and the validity of the certification maintenance process, APICS reserves the right to suspend your certification for failure to acquire sufficient points within your designated five-year cycle or for failure to submit your application with payment by your deadline. Accordingly, you will not be permitted to use the APICS CPIM or APICS CFPIM designation or be credited with such in any APICS publication or

### Table 1. Certification Maintenance Cycle Compliance Dates

<table>
<thead>

</tr>
</tbody>
</table>

*Note: Failure to attain sufficient points or to apply on time will result in suspension, upon which an additional 15 CPIM or 20 APICS CFPIM points will be assessed immediately and every year thereafter on the anniversary date of suspension, until certification maintenance requirements are fulfilled.

Certification Maintenance Cycles

Certification maintenance cycles run in five-year intervals, commencing from the date of initial certification and ending on the last day of the month that initial certification was received. If you became certified on or after January 1, 1999, you may begin accumulating points once you pass your last certification exam or are notified that your APICS CFPIM application is approved. (See Table 1 above.)

For instance, you initially became APICS CPIM on April 21, 2000; you began accumulating your 75 points as of April 21, 2000. Your first certification deadline was April 30, 2005. If you missed this deadline or failed to earn the required points, your certification was suspended as of May 1, 2005. To reinstate your certification, you were required to earn the 75 core points plus an additional 15 points each year for every year that your certification maintenance lapsed. In other words, if you did not apply by April 30, 2005, you were required to earn 90 points by April 30, 2006. If you did not apply by April 30, 2006, you were required to earn 105 points by April 30, 2007, and so on. If your certification status continues to lapse for five years past your suspension date, and you have not applied for certification maintenance by April 30, 2010, you must take and pass the required certification exams again. There are no exceptions to this requirement.

Application Deadline Notification

APICS sends four application deadline reminders via email to all candidates. Reminders are sent one year in advance of the deadline, 90 days, 60 days and 30 days.

Members receive additional notification of their certification maintenance deadline on their membership renewal notice.

Address Change

It is a candidate’s responsibility to update email and mailing addresses with APICS to ensure receipt of all certification maintenance notifications. To update the information, please visit [apics.org](http://apics.org) or contact APICS Customer Support.
employment inquiry until such time as you either

1. Acquire an additional 15 APICS CPIM or 20 APICS CFPIM points per year, over the core 75 or 100 points, for each year past your certification maintenance deadline OR
2. Complete the full APICS CPIM exam process or the full APICS CFPIM process (which requires taking and passing the required APICS CPIM exams and submitting a APICS CFPIM application).

If you fail to maintain your certification status within five years past your suspension date, you must complete the full APICS CPIM or APICS CFPIM process.

Note: The full 15 APICS CPIM or 20 APICS CFPIM points are assessed immediately upon suspension and every year thereafter on the anniversary date of the suspension until certification maintenance requirements are fulfilled.

**SUBMITTING YOUR APPLICATION**

- To apply for certification maintenance, candidates must submit
  - a completed and signed application
  - Professional Development Journal
  - the application processing fee ($75 APICS member/$150 nonmember).

- Do not submit supporting documentation to substantiate points claimed at this time.
- Be sure to keep a photocopy of your application and Professional Development Journal.
- Applications must be postmarked no later than the last day of your anniversary month.
- Please print clearly in block lettering. APICS may not be able to process your application if your information is not legible.
- Application must be signed and dated.
- APICS will notify you via email once your application is received. Candidates will receive written notification of their application status one to three weeks after the application is received by APICS. If you do not receive written notice from APICS after six weeks, please contact APICS Certification Maintenance at certification@apics.org.
- Transfer point totals from your Professional Development Journal to the application within the appropriate category and year. Include your Professional Development Journal with your application.

**Candidates Can Now Apply Online**

To apply online, access apics.org/certification.maintenance.

When candidates apply online, they
  - Save time
  - Receive automated response that the application

was received
• Pay on a secure site.
Follow these instructions to submit your online application.
• You need to be logged into the APICS Web site to access the application form.
• The form will automatically populate with candidate’s name and address.
• Check if you are applying for APICS CPIM or APICS CFPIM.
• Enter your (a description must be entered for each category for points to add up correctly)
  – Continuing education information
  – Presentations, publications, and educational development information
  – Service to the operations management profession information.
  – Professional membership information
• Make sure to enter how many points you are claiming for each category.
• Enter payment information. Candidates will be charged the appropriate fee based on whether
  they are members at the time they apply.
• Submit.

Application Information
• Provide your original certification maintenance application deadline. This information will assist APICS
  in verifying your certification records. If you are unsure of your deadline date, please contact APICS Customer
  Support.
• If you do not know your APICS Member/Customer ID Number, please contact APICS Customer Support.
• The mailing address you enter on the application will be used for certification maintenance correspondence
  from APICS.
• At the top of each column, enter the year in which the points were earned for that category.
• Please provide an email address. Confirmation of information or questions about your application will be
  communicated via email.
• Totals in excess of the required 75 points for APICS CPIMs and 100 points for APICS CFPIMs will not be
  carried over to your next certification maintenance cycle.

Professional Development Journal: The journal enables you to record and track your activities and
points. Each entry must contain all relevant information, including
• program or course title
• number of hours
• dates attended
• location
• program or course description.

Note: You must submit your original Professional Development Journal along with your certification
maintenance application. However, you need not submit backup documents verifying your activities when you
apply for certification maintenance. APICS will conduct random audits of applications, at which time verification
will be required. It is therefore important that you keep brochures, receipts, certificates, employer letters,
presentation outlines, published works, and so forth, as verification of your activities.

Certification maintenance application: The application and Professional Development Journal are located at
the back of this bulletin and are available for download from the Certification Maintenance section of apics.org.
All information from your Professional Development Journal must be transferred to this application form.
The form must be signed, dated, and sent together with your Professional Development Journal to APICS
with a postmark by your deadline (the last day of your anniversary month). By signing this form, you affirm that
you have provided complete and accurate information. You are responsible for submitting full documentation within
30 days only if your application is audited. A certification maintenance application is on page 10 of this document.

Processing Fee
The application processing fee for certification maintenance is $75 for APICS members and $150 for nonmembers.
Payment may be made by credit card or by check or money order made payable in U.S. dollars to APICS.
Applications will not be processed without payment.

Revocation of Certification
APICS reserves the right to revoke your certification for violating the APICS Code of Ethics by willfully falsifying
documents or information on the certification maintenance application.

Suspension Appeals Process
You may appeal decisions related to your certification maintenance application within 60 days of receiving
official written notification of suspension from APICS. Appeal requests must be submitted in writing and will
be reviewed by APICS. APICS will make a final decision based on established program policy as outlined in this
bulletin and any program updates. Your certification designation will not be suspended until after the
determination has been made and you have been officially notified in writing.

Document Retention
APICS maintains records of certification exam scores and certification maintenance dates indefinitely.
However, certification maintenance applications and supporting documents submitted to APICS upon request
for audit purposes are retained for one year only and then destroyed.
Points are obtained from core areas that are part of, or related to, the APICS body of knowledge. Flexibility in selecting activities is built in to enable you to design a continuing education plan that meets your unique educational needs and career goals. Thus, points can be earned through multiple sources, including educational programs sponsored by APICS, employers, other professional societies, degree-granting institutions, and other providers, as long as the program content relates directly to operations management.

Points may be accumulated in any combination from any of the four activity categories that occur following the original certification date. No points are awarded for professional development activities that have occurred previously to becoming certified. In keeping with APICS’ educational mission to inspire lifelong learning, greater point emphasis is placed on Category I (Continuing Education) and Category II (Presentations, Publications, and Educational Development); however, an 80 percent limit (60 points for APICS CPIM or 80 points for APICS CFPIM) is placed on Category II to ensure that individuals who teach or publish extensively diversify their professional development activities. For a list of activities that qualify toward the APICS CPIM maintenance program, access apics.org/certification/maintenance/profdev.

Note: Certification maintenance does NOT require that you take and pass any exams UNLESS your certification status lapses for five years past your suspension date.

Activity Categories and Point Criteria

I. Continuing Education (CE)

One point per instructional hour (half-hour increments are accepted for .5 point) for attending any educational program or course that relates directly to operations management.

- A conference, seminar, workshop, or APICS Webinar*
- A certification item-writing workshop
- An online item writing (per approved item)
- A district meeting with an educational component
- A professional development program (e.g., chapter or district)
- A APICS CPIM review course
- A course offered by a degree-granting institution of higher education (Note: Failed courses do not earn points.)
- A training program sponsored by your company or another independent organization, such as the Council of Supply Chain Management Professionals (CSCMP), Institute for Supply Management (ISM), Society of Manufacturing Engineers (SME), and so forth.

*Webinars must be accredited to receive credit.

APICS CSCP

- With the launch of the APICS Certified Supply Chain Professional (CSCP) program in 2005, APICS added two ways to earn certification maintenance points. Individuals who earn a certification of achievement for the APICS CSCP Learning System will receive 30 points and those who pass the CSCP exam will receive an additional 20 points. For information about the APICS CSCP program, visit apics.org/CSCP.

Independent Study

- A college/university course that awards 3 credits will receive 48 points (3 hours x 16 weeks = 48 hours).
- Home-study courses (including APICS-MGI Management Institute and ISM home-study courses) will receive 3 points.
- All other courses having approved CEUs will receive 3 points per CEU credit (a course authorized for 3 CEUs would receive 9 points).

APICS International Conference and Exposition

A total of 24 points may be claimed for full conference attendance. Partial points for part-time attendance will also be accepted with one point awarded per educational or instructional hour.

APICS Exams

Ten points will be awarded for each APICS CPIM and CIRM exam passed. Twenty points will be awarded for passing the CSCP exam. Only the exams passed after original certification is earned are eligible for points.

II. Presentations, Publications, and Educational Development (PPED)

(Minimum activity points earned: APICS CPIM 60 points or APICS CFPIM 80 points)

Two points per instructional hour (half-hour increments are accepted for 1 point) for conducting the following programs directly related to operations management:

- Conferences
- Courses (including certification review)
- Meetings (instructional)
- Seminars
- Tutorials
- Workshops
- Other presentations

Note: Points are awarded only once per year for presentations on the same topic. The time required to prepare presentations is not eligible for points.

Two points per article or contribution on a subject matter relating directly to operations management published in the following:

- Book
- Booklet
- Magazine
- Monograph
- Newsletter
- Proceedings

APICS Customer Support: (800) 444-2742 or (773) 867-1777
Six points per year as a qualifying member of APICS
- professional
- student
- lifetime
- honorary member
- international
- honorary chapter
- enterprise
- e-membership

One point per year for membership in another operations management-related national or international organization.

FREQUENTLY ASKED QUESTIONS

When may I begin earning points toward certification maintenance?
You may begin accumulating points once you pass your last certification exam or are notified that your APICS CFPIM application has been approved.

Will I be notified if there are any changes to the Certification Maintenance program?
Yes. APICS will send you reminders about the Certification Maintenance program. It is therefore important that you inform APICS of any changes to your home, work, or email addresses to ensure that you receive all current information regarding certification maintenance. To submit a change of address, please use the Information Update Form on page 13, contact APICS Customer Support, or visit apics.org to update your personal information. You also may obtain program information by visiting the APICS Web site at apics.org/certification.

May I apply for certification maintenance as soon as I have earned the necessary points?
You may not apply until one year in advance of your application deadline. Once you have a copy of your application and have fulfilled the point requirements, you have until the end of your certification anniversary month of that fifth year to submit your application, along with payment, to APICS. (See Table 1 on page 2.)

What is the processing fee for certification maintenance?
The application processing fee for certification maintenance is $75 for APICS members and $150 for nonmembers. Payment may be made by credit card or by check or money order made payable in U.S. dollars to APICS. (Applications will not be processed without payment.) To become a member, visit apics.org/join or contact APICS Customer Support.

What is lifetime certification and how do I attain it?
Upon reaching age 62, an APICS-certified professional qualifies to be certified for life. No further reporting is necessary, except to send written notification to APICS with supporting documentation of proof of age (e.g., copy of birth certificate or driver’s license) on or before your certification maintenance deadline. Once received, APICS will send you a letter confirming your lifetime certification status. If your certification status is suspended, you are not eligible for lifetime status until you renew your certification.

---

Note: The time required to research and develop material is not eligible for points.
Five points for original operations management research that is ultimately published and distributed (e.g., Journal of Operations Management, Production and Inventory Management Journal, white papers).

Thirty points for each written and published book that relates directly to operations management.

Ten additional points for any published material noted above that is cited as an APICS certification reference. (Note: These 10 points for certification reference materials are in addition to the points received for the actual publication.)

III. Service to the Operations Management Profession (SOMP)
Note: At each level, for those holding multiple positions, only the highest service position can be claimed for points in any given year. The maximum number of points that can be claimed in this section are 40 points per maintenance cycle.

At the association level of APICS or another related national or international association:
- Five points per year as an officer of a governing board (examples: chair, chair-elect, president, president-elect, past president, secretary/treasurer, or vice president of chapter development)
- Four points per year as a member of a governing board (example: district director, region vice president)
- Four points per year as the chair of a functional, standing council or committee (examples: Voice of the Customer Committee, Body of Knowledge Committee, Chapter Development Committee, or District Manager Committee)
- Two points per year as a member of a standing council or committee (examples: Voice of the Customer Committee, Body of Knowledge Committee, Chapter Development Committee, or District Manager Committee).
- Fifteen points per year as a member of a Certification Committee.

At the chapter or district level of APICS or another related national or international association:
- Three points per year as an officer of a governing board (examples: president, vice president, or secretary/treasurer)
- Two points per year as a member of a governing board (examples: vice president of educational development, or membership and chapter development)
- Two points per year as the chair of a standing committee (examples: membership or education committees)
- One point per year as a member of a standing committee (examples: membership or education committees).
May I attain most or all of the 75 points (100 points for APICS CFPI M) from one category?
You may accumulate points from any category in any combination. However, there is a limit of 60 APICS CPIM points or 80 APICS CFPI M points in Category II: Presentations, Publications, and Educational Development. This limitation ensures that individuals who teach or publish extensively diversify their point total.

Will only APICS programs and activities count toward my certification maintenance?
No. The goal of APICS certification maintenance is to show that you are pursuing lifelong learning. Thus, APICS does not limit your continuing professional development activities to only APICS events. For example, you may collect points for attending operations management educational programs sponsored by other national or international organizations or educational institutions. You also may attain points for serving in leadership positions in operations management-related national and international organizations other than APICS.

What type of documentation must I provide?
The Professional Development Journal on page 12 will help you track and document progress toward your certification maintenance. You should list in the journal your specific educational activities and their point value, including all relevant information such as
- program or course title
- number of hours
- dates attended
- location
- program or course description.

Transfer information from your journal to the application and submit the application, along with your original journal and processing payment, by your deadline. You will not be required to provide backup material to substantiate your points at that time; however, APICS will conduct random audits of applications. Thus, you should keep receipts, certificates, brochures, employer letters, outlines of speeches and presentations, copies of published works, and so forth, to substantiate your activities in case your application is audited.

May I simply retake the required APICS CPIM exams to maintain my APICS CPIM designation?
The Certification Maintenance program is not designed to replicate the certification test-taking process. Rather, the intent of the program, as embodied in the APICS Vision and Code of Ethics, is to promote lifelong learning through professional development beyond certification. However, as an option, you may complete the full APICS CPIM exam process just as you did when you attained your original certification. Once you complete the full APICS CPIM process, the date upon which you pass your last exam becomes your new “initial” certification date and your five-year certification maintenance cycle will commence from that date. For APICS CFPI M certification maintenance, you may choose to complete the full APICS CFPI M process, which includes passing the APICS CPIM exams and submitting the APICS CFPI M application. If your certification status is suspended and continues to lapse for five years past your suspension date, you must take and pass the required certification exams.

Can I earn points for pursuing the APICS CSCP designation?
With the launch of the APICS Certified Supply Chain Professional (CSCP) program in 2005, APICS added two ways to earn certification maintenance points. Individuals who earn a certificate of achievement for the APICS CSCP Learning System will receive 30 points and those who pass the CSCP exam will receive an additional 20 points. For information about the APICS CSCP program, visit apics.org/CSCP.

If I earn more than the required points for certification maintenance, may I carry the additional points over to my next cycle?
No. You may earn points only within your designated five-year maintenance cycle.

If I am APICS CFPI M and I don’t earn enough points to maintain my APICS CFPI M status, but I earn enough points to maintain my APICS CPIM status, may I maintain my APICS CPIM status?
Yes. If you do not have enough points to maintain your APICS CFPI M status by your application deadline, but you do have enough points to maintain your APICS CPIM status, you must submit a letter with your application requesting that your application be processed for APICS CPIM status.

How will I know when my five-year certification maintenance deadline is approaching?
APICS stores your initial certification date and certification maintenance dates in its database. Your certification maintenance deadline will be listed on certification maintenance program reminders. APICS will send you reminders that your application deadline is approaching. You may also contact APICS Customer Support at (800) 444-2742 or (773) 867-1777 to obtain your deadline.

What if I fail to submit my certification maintenance application by my deadline?
You are required to submit your application every five years by the end of the anniversary month of your initial certification. If you fail to submit your application with payment on time or fail to earn the necessary points, you...
will be notified in writing by APICS that your certification has been suspended. Accordingly, you will not be permitted to use the APICS CPIM or APICS CFPIM designation or be credited with such in any APICS publication or employment inquiry until you have met the certification maintenance requirements (including earning any additional points assessed).

**How do I reinstate my certification after it has been suspended?**

To reinstate your certification status, you will be required to accumulate 75 APICS CPIM or 100 APICS CFPIM core points plus an additional 15 APICS CPIM or 20 APICS CFPIM points per year for every year past your certification maintenance deadline. If you do not meet these certification maintenance requirements within five years past your suspension date, you will be required to pass all APICS CPIM exams or complete the full APICS CFPIM process.

Note: The full 15 or 20 points are assessed immediately upon suspension and every year thereafter on the anniversary date of your suspension until 5 years after your original due date at which time you will be required to take and pass all the APICS CPIM exams again.

**Can I claim the same maintenance points toward both my APICS CSCP and APICS CPIM certification maintenance?**

Yes. If you have points earned toward your APICS CSCP maintenance program, they may be applied to your APICS CPIM maintenance provided they meet the requirements outlined in the APICS CPIM Maintenance Bulletin. Only the exams passed after the original certification is earned are eligible for points. You will not be able to claim points from the CSCP Learning System toward your CSCP maintenance.

**If I apply late, will my new due date be five years from the date I apply?**

No, if you apply late your new due date will be five years from your last due date. For example your maintenance was due November 2008, you sent you application in May 2010, your new due date will be November 2013.

**When will I receive my new APICS CPIM/CFPIM certificate?**

Candidates will receive their new certificate within six to eight weeks upon approval.

**Which exam modules from the AST&L certification program can I waive if I have an APICS certification?**

APICS designees can obtain the AST&L Certification in Transportation and Logistics (CTL) on a fast track using their APICS certifications to waive some of the CTL requirements. APICS CSCP designees can waive the elective Supply Chain Management module, and APICS CPIM/CFPIM designees can waive the required Logistics Management module. For more information about the AST&L CTL program, visit the AST&L Web site.
Table 2. APICS CPIM/CFPIM Certification Maintenance Activity Categories and Point Allocations

Total Points Required: 75 APICS CPIM or 100 APICS CFPIM Every Five Years

### I. Continuing Education (CE)
(Must relate directly to operations management to qualify)

<table>
<thead>
<tr>
<th>Activity Points Earned (No maximum)</th>
<th>Points</th>
</tr>
</thead>
<tbody>

GRAND TOTAL POINTS = _______

In keeping with the APICS Code of Ethics, I hereby attest that all information presented on this application is correct and complete. I understand that I am responsible for maintaining supporting documentation, which I may be required to submit as evidence for points claimed. I further understand that APICS conducts a random audit of submitted applications and professional development journals. Furthermore, I agree to abide by the rules and decisions of APICS and understand that falsification of this application is grounds for revoking certification.
Retain a copy for your records. Information from this journal must be transferred to your official certification maintenance application form, which will be sent to you separately a year before your certification maintenance deadline. You must include the original Professional Development Journal with your certification maintenance application. Points required every five years: 75 APICS CPIM/100 APICS CFPIM.
